Description of how strategy/strategies will provide

We will follow the Osage R1 Reading Literacy plan to screen all students in grades K-5 for essential reading skills, as well as administer required state K-3 reading assessment. We will analyze gathered data to identify which students need additional instruction in specific areas such as: letter naming fluency, rapid automatic naming, phonemic awareness, phonics, oral reading fluency, spelling, and/or reading comprehension. We will provide identified students with targeted interventions by classroom/Title 1/SPED teachers. We will perform routine progress monitoring to measure each student's response to the intervention provided and to guide decisions about further interventions

Phonics benchmark and progress monitoring students in reading.

RTI schedules will be developed to be more effective and efficient for student success. Supplemental resources aligned to state approved resource list will be implemented (Wilson Foundation, Hand2Mind, Sound Partners, Amira, IXL, etc)

ESGI Program will help teachers use benchmark assessments aligned to MLS. These tests will provide data to create differentiated instruction for the students.

Data teaming will continue with ELA. Teachers will use Core Phonics, Wilson, Amira, CKLA, IXL, etc to collect data. Consultants will assist staff in interpreting data and developing instruction based on data.

Instructional resources aligned with Science of Reading such as CKLA, Wilson, and Hegerty will be incorporated into instruction.

Staff will continue to develop, revise, and implement curriculum approved by the district and aligned to the MLS.

The district will continue to participate in the Multi Tiered Systems of Support. Focus areas will include Developing Assessment Capable Learning, Data Teams, Peer Coaching, Tiered Instruction, and Behavior Supports.

- ☒ Use methods and instructional strategies that strengthen the academic program in the school.

Description of how strategy/strategies will strengthen

The school will provide push-in pull-out, and other small group instruction to assist students who are at risk of not meeting learning standards. The content focus areas will be ELA and Math. The school will provide additional learning opportunities on Mondays and after school to help improve student performance. A summer session will be held prior to the start of the new school year to prepare students for the upcoming school year.

Additional services will be provided by staff in person, or virtual instruction. District will use virtual instructional programs aligned to the approved virtual tutoring list should a supplemental teacher not be available to hire.

The SPED and Title 1 teachers will continue to help students develop phonics, decoding, and reading skills by using the Wilson Foundations Reading system, Heggerty, CKLA, and UFLI. Classroom teachers will work with struggling students one-on-one or in small groups providing differentiated instruction based on what each student needs. Routine progress monitoring checks will ensure that all students are making sufficient progress with the current intervention provided.

Bridges in Math will be implemented. This will be the third year. Instructional training in mathematics will be provided by experienced consultants..

Staff will be training on developing assessment capable learners, and improve the use of learning targets with students.

Programs and resources aligned to the science of reading will be implemented in the elementary. Geodes Classroom Library Sets will accompany Wilson Foundations instruction.

Staff development will occur in collaborative teams and data based decision making. Teachers will strengthen their understanding of priority standards, learning targets, and collaborative activities to improve teacher efficacy.

☒ Increase the amount of learning time

- ☐ Extended school year
- ☒ Before-and/or after-school programs
- ☒ Summer program
- ☐ Other

☒ Help provide an enriched and accelerated curriculum

Description of how strategy will provide

Grade level teachers meet with small (tiered) groups of students daily in ELA and math to provide instruction based on data related to skill development.

Classroom teachers provide centers of varying degrees of difficulty so that all students find an activity that matches their ability level.

Librarian provides STEM lessons and activities to all students so that all students are being challenged and exposed to additional learning opportunities.

Classroom teachers provide various STEM activities/lessons each semester in which students work cooperatively to use critical thinking skills to solve problems.

Online programs are also used by individual students to provide individualized instruction/lessons based on each child's ability level including an accelerated curriculum. Resources such as Amira, IXL, Edmentum, and Booknook will be used to gather assessment data and provide individualized instruction.

XTra Math provides addition and subtraction practice on students' individual levels of fact fluency and adjusts their facts accordingly.

Moby Max (used in every subject area) provides interventions as well as accelerated lessons based on each student's ability level which adjusts as needed during their sessions.

Building Blocks (students are leveled according to grade level and work at their own pace).

Math supplemental resources provide additional learning opportunities based on individual or group mastery of certain concepts.

The summer school will be offered for extended and accelerated learning opportunities.

ESGI is a program designed to test students on MLS. Teachers can also modify tests or create tests based on student needs.

Data team meetings will include discussion on teacher progression through curriculum. Teachers will continue to develop, revise, and present curriculum for district adoption. Support will be provided through MTSS Consultants, StepUp resources, RPDC, and others.
